

# SCIENCE IN CHINA

## (SCIENTIA SINICA)

Series A

### SUBJECT INDEX TO VOLUME 34 (1991)

#### Mathematics

- Orbit Shift Stability of Class of Self-Covering Maps .....  
.....CHEN Zao-ping et al. ( 1 )
- A Characterization of Suzuki-Ree Groups .....  
.....SHI Wu-jie et al. ( 14 )
- Enumeration of Latin Arrays (II)  
—— Case  $n=4, k \leq 4$  .....  
.....TAO Ren-ji et al. ( 20 )
- Asymptotic Optimality for One Class of Truncated Sequential Tests .....  
.....CHEN Jia-ding ( 30 )
- Computational Complexity on Numerical Integrals .....  
.....WANG Xing-hua et al. ( 42 )
- On Indecomposable Modules Over a Representation-Finite Trivial Extension Algebra .....  
.....XIAO Jie ( 129 )
- On Morse Conjecture of Metric Transitivity .....  
.....DING Tong-ren ( 138 )
- Solvability and Well-Posedness of Higher-Order Abstract Cauchy Problems.....  
.....ZHENG Quan ( 147 )
- Precise Fundamental Inequalities and Sum of Deficiencies .....  
.....YANG Le ( 157 )
- Existence and Uniqueness of Smooth Solution for System of Ferro-magnetic Chain .....  
.....ZHOU Yu-lin et al. ( 257 )
- Isomorphism Problem for Tensor Algebras Over Valued Graphs .....  
.....LIU Shao-xue ( 267 )
- Comparison Theorems and Applications of Oscillation of Neutral Differential Equations .....  
.....YAN Ju-rang ( 273 )
- A New Application of Davenport's Method .....  
.....LU Ming-gao ( 385 )
- Convergence Rates of Law of Iterated Logarithm for  $B$ -Valued Random Variables.....  
.....LI De-li ( 395 )
- Finite Difference Method of First Boundary Problem for Quasilinear Parabolic Systems (Continued)  
.....ZHOU Yu-lin et al. ( 405 )

Martingale Spaces and Geometrical Properties of Banach Spaces .....	LIU Pei-de ( 513 )
Inverse Matrix and Properties of Double Determinant Over Quaternion Field .....	CHEN Long-xuan ( 528 )
Immersion of $n$ -Manifold in $R^{2n-\alpha(n)-1}$ up to Cobordism.....	YANG Hua-jian ( 541 )
Brownian Motion Model of Entangled Polymers and Simulation for Disentanglement .....	QIAN Min-ping et al. ( 546 )
A Remark Upon Sample Properties of $N$ -Parameter $d$ -Dimensional Ornstein-Uhlenbeck Process .....	CHEN Xiong ( 553 )
A Representation of Non-zero Elements in Finite Field .....	CHANG Yan-xun et al. ( 641 )
Perturbation for Elliptic Variational Inequalities.....	ZHOU Shu-zi ( 650 )
On the Mean Value Formula of Dirichlet $L$ -Functions (II) .....	ZHANG Wen-peng ( 660 )
Spatial Patterning of Spruce Budworm in Circular Region .....	GUO Ben-yu et al. ( 676 )
Generators of Vector Fields and Time Dependent Symmetries of Evolution Equations .....	MA Wen-xiu ( 769 )
The Structure of LaSalle's Invariant Set for Lotka-Volterra Systems .....	LIU Li et al. ( 783 )
Characterization of Primitive Extremal Matrices.....	LIU Bo-lian et al. ( 791 )
The Structure of the Singular Symplectic Matrix Set .....	LONG Yi-ming ( 897 )
Maximal Independent System of Units in Cyclotomic Function Fields .....	FENG Ke-qin et al. ( 908 )
The Stability of a Heteroclinic Cycle for the Critical Case .....	FENG Bei-ye ( 920 )
Galois Triple Covers of Surfaces .....	TAN Sheng-li ( 935 )
Glauber's Conjecture, Mazurov's Problem and Peng's Problem .....	XIAO Wen-jun ( 1025 )
Generalized Cohomology Operations and the Finiteness of Multiplicative $\psi_k$ -Modules .....	PAN Jian-zhong et al. ( 1032 )
Three Primes Theorem in a Short Interval (III) .....	JIA Chao-hua ( 1039 )
Orientation-Preserving Periodic Self-homeomorphisms of 2-Dimensional Orientable Manifolds .....	MAI Jie-hua ( 1057 )
An Application of KAM Theorem of Reversible Systems .....	LIU Bin ( 1068 )

Simultaneous Diophantine Approximation .....	.....
.....	.....WANG Lian-xiang (1153)
Closed Surface With Prescribed Mean Curvature in $R^3$ .....	.....
.....	.....HUANG Xuan-guo (1162)
Components of the Essential Spectra of Quasi-similar Operators .....	.....
.....	.....YAN Zi-kun (1174)
Chaitin Complexity, Shannon Information Content of a Single Event and Infinite Random Sequences	
(I) .....	.....YANG En-hui et al. (1183)
3-Periodic Orbit Implying 6831726876986508 85-Periodic Orbits	
—— Infimums of Numbers of Periodic Orbits in Continuous Functions .....	.....
.....	.....MAI Jie-hua (1194)
A Characteristics Mixed Finite Element Method of Numerical Simulation for 2-Phase Immiscible	
Flow .....	.....LIANG Dong (1281)
Permutation Modules, $p$ -Permutation Modules and Conlon Species .....	.....
.....	.....FAN Yun (1290)
Involution Number Sequence and Dimensions of Components in Fixed Point Set of Involution .....	.....
.....	.....YANG Hua-jian (1302)
Chaitin Complexity, Shannon Information Content of a Single Event, and Infinite Random Sequences	
(II) .....	.....YANG En-hui et al. (1307)
An Affirmative Answer to Problem 24 of P. Turán .....	.....
.....	.....SHI Ying-guang (1320)
Hilbert $C^*$ -Modules and Their Bounded Module Maps .....	.....
.....	.....LIN Hua-xin (1409)
On the Extended Matrix Disc Conjecture .....	.....
.....	.....ZHOU Xiang-yu (1422)
Relatively Complemented Distributive Lattice .....	.....
.....	.....DONG Rong-sen (1427)
Infinite Element Method for Elliptic Problems .....	.....
.....	.....YING Long-an (1438)
The Regularity of Viscosity Solutions for a Class of Fully Nonlinear Equations .....	.....
.....	.....DONG Guang-chang et al. (1448)

## Physics

Theoretical Calculation of Vibrational and Rotational Excitation Cross Sections for He- $H_2$ Collision	
.....	.....YANG Xiang-dong ( 48 )
Doping Mechanism of Conjugated Polymer With Conjugated Triple Bond .....	.....
.....	.....PENG Jing-cui ( 61 )
The Optimized Expansion for sine-Gordon Field Theory at Zero and Finite Temperatures in $D+1$	
Dimensions .....	.....LOU Sen-yue et al. ( 68 )
Basic Equations for Suspension Flows With Interphase Mass Transfer .....	.....
.....	.....LIU Da-you et al. ( 166 )
On Theory of Plastic Postbifurcation .....	.....SU Xu-ming ( 181 )

An Analytical Model of the Cantilever Beam Subjected to Oblique Impact .....	<i>YU Tong-xi</i> ( 191 )
Thermophysical Properties of Chinese Coals .....	<i>GU Yu-qin</i> ( 201 )
Multivariable Finite Elements: Consistency and Optimization .....	<i>WU Chang-chun et al.</i> ( 284 )
Improving Tried Wave Functions by Decreasing Energy Deviation of Fixed Samples .....	<i>SUN Zhi-wei et al.</i> ( 300 )
Fundamental Solution of Bi-Material Elastic Space .....	<i>HUANG Ke-fu et al.</i> ( 309 )
Angular Distribution in Photodissociation of Oriented Polyatomic Molecules .....	<i>XIANG Tian-xiang</i> ( 316 )
Noether's Theorem and Its Inverse of Nonholonomic Nonconservative Dynamical Systems.....	<i>LIU Duan</i> ( 419 )
Direct Measurement of Multiple Quantum Relaxation Time .....	<i>YE Chao-hui et al.</i> ( 430 )
Attitude Motion of Dual-Spin Spacecraft Composed of Two Asymmetric Bodies.....	<i>YANG Hai-xing</i> ( 443 )
Phase Transition and Crystal Structure of a New Compound — $\text{Sr}_2\text{CdWO}_6$ .....	<i>FU Zheng-min</i> ( 455 )
Exact Analytic Solutions of Stationary and Fast Propagating Cracks in a Strip .....	<i>FAN Tian-you</i> ( 560 )
New Examination on Theory of 2-Level Atoms .....	<i>HUANG Xiang-you</i> ( 570 )
Effects of Stochastic Extension in Ideal Microcrack System .....	<i>XIA Meng-feng et al.</i> ( 579 )
Optimization of Tried Wave Function in Quantum Monte Carlo Method .....	<i>HUANG Sheng-yu et al.</i> ( 689 )
The Possibilities of Electrochemically Induced Nuclear Fusion of Deuterium .....	<i>JIN Shang-xian et al.</i> ( 697 )
Validity of Excess Entropy Production Criterion of Thermodynamic Stability for Nonequilibrium Steady States .....	<i>WU Jin-ping</i> ( 708 )
DV- $X_d$ Method for Calculating $d-d$ Ligand-Field Spectra and Its Application to $(\text{CrF}_6)^{3-}$ .....	<i>YANG Jin-long et al.</i> ( 803 )
Application of the Probability Wave Theory of Atomic Configuration —— The Ordered Structures of Compound Perovskite Materials .....	<i>GU Bing-lin et al.</i> ( 814 )
On Dilatational Plastic Constitutive Equation of Ductile Materials and Plastic Loading Paths at Bifurcation .....	<i>LI Guo-chen</i> ( 825 )
The Transitivity of Thermal Equilibrium and the Transitivity of Clock Rate Synchronization .....	<i>ZHAO Zheng</i> ( 835 )
Some Theoretical Aspects of the Simplified Navier-Stokes (SNS) Equations.....	<i>CHEN Guo-qian et al.</i> ( 943 )

Probability Wave Theory of the Atomic Configuration for Multi-component Crystal Structures .....	<i>GU Bing-lin et al.</i> ( 955 )
$SU(2) \times SU(2)$ Quasi-spin Model and Methods for Restoring Broken Symmetries of Self-consistent Solutions ( I )	
— An Exact Solution and HF Approximation .....	<i>LIAO Ji-zhi</i> (1079)
Effect of Organized Artificial Disturbances in Outer Region of Wall Turbulence on Fluctuating Characteristics of Inner Flow .....	<i>YAO Sheng-hong et al.</i> (1088)
Generalized Boussinesq Equation and KdV Equation	
— Painleve Properties, Backlund Transformations and Lax Pairs .....	<i>LOU Sen-yue</i> (1098)
A Possible Approach to Search for Dyons Under Bound Conditions .....	<i>ZHANG Jian-zu</i> (1205)
Analytic Solution to the Schrödinger Equation With a Harmonic Oscillator Potential Plus $\delta$ -Potential .....	<i>PENG Qing-zhi et al.</i> (1215)
Value Mapping and Parameterization Approach to Robust Stability Analysis .....	<i>HUANG Lin et al.</i> (1222)
New Pure Gauge-Boson Processes Involving Axiguons in Chiral-Color Model .....	<i>ZHANG Jian-zu</i> (1329)
Method for Measuring Resistance of Metals in Diamond Anvil Cell and the Measurement of Piezoresistance Coefficient of Manganin .....	<i>PU Feng-nian et al.</i> (1339)
Extended Feynman Formula for Harmonic Oscillator and Its Application .....	<i>LIANG Jiu-qing et al.</i> (1346)
Some Features of the Turbulence Produced by Rising Air Bubbles in Water .....	<i>JIA Fu et al.</i> (1458)
An Aggregate Function Method for Nonlinear Programming .....	<i>LI Xing-si</i> (1467)
$q$ -Deformed Verma Representations of Quantum Algebra $sl_q(3)$ and New Type Yang-Baxter Matrices .....	<i>SUN Chang-pu et al.</i> (1474)

### Astronomy

Short-Range Force in the Numerical Simulation of Large-Scale Structure in the Universe .....	<i>SONG Guo-xuan et al.</i> ( 79 )
Discovery of New Compositions — Li and B in Interplanetary Dust Particles .....	<i>XU Yin-lin et al.</i> ( 209 )
On Kolmogorov Entropy of Some Measure-Preserving Mappings .....	<i>YAN Zhi-ming et al.</i> ( 214 )
Exact Solution to Linear Vlasov Equation and Discussions on Landau Damping, Instabilities and Resonant Interactions .....	<i>CAI Heng-jin et al.</i> ( 324 )
Data Reduction of Snapshot VLBI Observations .....	<i>NAN Ren-dong et al.</i> ( 590 )
Redshift Distribution and Evolution Function of Quasi-Stellar Objects .....	<i>ZHOU You-yuan et al.</i> ( 598 )

Morphology Category of Geomagnetic Storms and Characteristics of Interplanetary Magnetic Clouds .....	ZHANG Gong-liang ( 717 )
Quasar Pairs and Quasar's Peculiar Velocity .....	CHU Yao-quan ( 841 )
Geocentric Quasi-Fermi and Geocentric Harmonic Coordinate Systems .....	HAN Chun-hao et al. ( 848 )
A Model of SVC Radiation in Magnetic Dipole Field and Radiation Varying With Magnetic Field (I) — Active Region Model and SVC Radiation Source Model .....	ZHAO Ren-yang ( 969 )
A Model of SVC Radiation in Magnetic Dipole Field and Radiation Varying With Magnetic Field (II) — SVC Radiation Mechanism and Radiation Variation With Magnetic Field .....	ZHAO Ren-yang ( 1109 )
Static and Stationary Black Holes With QCD Hairs .....	YU Hong-wei et al. ( 1233 )
The Tangential Discontinuous Surface of Velocity in Solar Chromosphere .....	HU Wen-rui et al. ( 1354 )
A Prediction of UT Series With Auto-adaptive Auto-regressive Model .....	DING Yue-rong et al. ( 1484 )
Generation Mechanism of Magnetic Noise Bursts in the Earth's Magnetotail .....	ZHOU Guo-cheng et al. ( 1492 )

### Technological Sciences

A Knowledge-Based Image Database System (ISDBS) .....	WU Jian-kang et al. ( 87 )
A Theory on Low-Energy Electron Scattering in Solids and Monte Carlo Calculation .....	HE Yan-cai et al. ( 94 )
Phase Relationships in Quasi-systems $R_2O_3$ -AlN-Al <sub>2</sub> O <sub>3</sub> (R=Ce, Pr, Nd, Sm) .....	SUN Wei-ying et al. ( 105 )
Effective Permittivity of Bounded Random Media .....	JIN Hang et al. ( 116 )
Theoretical Calculation of Mill Steel Ball Size .....	DUAN Xi-xiang ( 220 )
An Automatic Printed Chinese Character Recognition System on Microcomputer .....	ZHANG Xin-zhong et al. ( 229 )
Three-Electrode High-Temperature Oxygen Sensor .....	CHEN Ai-fan et al. ( 240 )
Eigenstructure Assignment for Time-Varying Linear Systems .....	DUAN Guang-ren et al. ( 246 )
Theoretical Calculation of High-Temperature Phase Diagram of Fe-Mn Alloy .....	WU Fei et al. ( 336 )
Quasilongitudinal Wave Along Y-Direction of LiNbO <sub>3</sub> and Its Ultrasonic Nonlinearity Parameters ...	JIANG Wen-hua et al. ( 346 )
Plastic Constitutive Relation and Plastic Voluminal Deformation .....	GAO Wan-zhang ( 354 )
Incremental Edge Wave Diffraction Coefficients — A New Method for Analyzing High-Frequency Edge Diffraction .....	RUAN Cheng-li et al. ( 366 )

Multi-layer Structures and Optical Properties of SIMNI and SIMOX Materials .....	<i>LIN Cheng-lu et al.</i>	( 376 )
3-Dimensional Analysis of Composite Residual Stresses Due to Twisted Fiber Bundles .....	<i>YAO Li-ning et al.</i>	( 467 )
Nonlinear Theory of 3-dB Hybrid-Coupled Power Combiner .....	<i>WU Zheng-de et al.</i>	( 479 )
A Unified Description of Free-Electron Masers — Gyrokinetics .....	<i>ZHANG Shi-chang</i>	( 489 )
Method of Solving the Radiative Transfer Equation for Atmosphere-Ocean System and Asymptotic State of Radiance in Sea Waters .....	<i>YOU Ming-chang et al.</i>	( 500 )
Several Problems in Thermofluid Dynamics .....	<i>GUO Zeng-yuan</i>	( 613 )
Mechanical Analyses on the $m$ -Value of Superplastic Bulging .....	<i>SONG Yu-quan</i>	( 623 )
Perturbation Approach to Solving the Radiative Transfer Equation for Ocean .....	<i>YOU Ming-chang</i>	( 633 )
The Generalized Vector Method of Quantitative Texture Analysis .....	<i>ZUO Liang et al.</i>	( 732 )
Determination of the Specific Inner Surface of Crystalline-amorphous Two-Phase System by Small- Angle X-Ray Scattering .....	<i>MENG Zhao-fu et al.</i>	( 740 )
Concerning a Basic Assumption for Aeroelasticity in Turbomachinery .....	<i>YANG Xiao-dong et al.</i>	( 746 )
$X_x$ Study of Laser Crystal (IV) — A DV- $X_x$ -HF Calculation of Alexandrite .....	<i>ZHU Ji-kang et al.</i>	( 755 )
Studies on the Self-activated Laser Crystal: Neodymium Aluminium Borate $NdAl_3(BO_3)_4$ .....	<i>LUO Zun-du et al.</i>	( 762 )
Performance Analysis of Static Data Flow Computers .....	<i>LIU Gui-zhong et al.</i>	( 857 )
A New Approach to Analysis of Synchronous Machines With Asymmetrical Armature Windings (I) — Fundamentals and Approach .....	<i>ZHANG Long-zhao et al.</i>	( 866 )
Framework of Algorithm Correctness in NDADAS .....	<i>LÜ Jian</i>	( 875 )
Steepest Descent Approximation Theory for the Study of Optical Waveguide .....	<i>WEN Gen-wang</i>	( 885 )
An Experimental Study on Turbulence Characteristics of Flows Over Smooth Spillway Dam .....	<i>CHEN Chang-zhi et al.</i>	( 977 )
Grain Core-Grain Shell Structure and Lattice Defect in $SrTiO_3$ Ceramics .....	<i>SONG Xiang-yun et al.</i>	( 991 )
A New Approach to Analysis of Synchronous Machines With Asymmetrical Armature Windings (II) — Parameter Calculation .....	<i>ZHANG Long-zhao et al.</i>	( 998 )
A Set of New All-Direction Robust Regulation Indices .....	<i>WANG Da-hai</i>	( 1005 )
Czochralski Silicon Crystal Growth in Nitrogen Atmosphere Under Reduced Pressure .....	<i>QUE Duan-lin et al.</i>	( 1017 )
Spectroscopic Study on Superconductor $YBa_2Cu_3O_x$ .....	<i>CAI Ji-ye et al.</i>	( 1119 )
Theoretical and Experimental Research on Thermal Sensor for Robot .....	<i>GAO Guo-wei et al.</i>	( 1126 )
Network Observation of Ionospheric Disturbances During the WAGS in October, 1985 .....	<i>LI Jun et al.</i>	( 1138 )

A Quasi-physical Method for Solving the Scheduling Problem of Space Utilization .....	<i>LIU Jiong-lang et al.</i>	(1144)
Shaped Dual-Reflector Antenna With Ring Focus .....	<i>ZHANG Ri-rong et al.</i>	(1243)
A Novel Aluminium Composite Selective Absorbing Surface .....	<i>YIN Zhi-qiang et al.</i>	(1256)
Electronic Structure of $\gamma'$ Phase Containing Mg in Nickel-Based Superalloy .....	<i>WANG Chong-yu et al.</i>	(1264)
High Frequency Photoacoustic Measurements in Air .....	<i>WANG Zhao-qiu et al.</i>	(1273)
Evolution Equation of Optical Solitons in Femtosecond Regime .....	<i>GUO Qi et al.</i>	(1365)
Deviation From Bragg Law and Edge Effect in Double-Crystal Diffraction .....	<i>LI Run-shen</i>	(1378)
Experiments on High-Gain Soft X-Ray Laser in Ne-Like Ge Plasma .....	<i>WANG Shi-ji et al.</i>	(1388)
The Existence and Design of Regular State Asymptotic Observer for Singular Systems .....	<i>YANG Cheng-wu et al.</i>	(1400)
A Novel Catalytic Sensor for Monitoring the Concentration of Mixed Combustible Gases .....	<i>LOU Rui-xian et al.</i>	(1500)
A Fuzzy Decision-making Technique With Two Kinds of Uncertainty .....	<i>ZHANG Hua-guang et al.</i>	(1508)
Magnetic Properties of Nd-Fe(Co, Al, Ga)-B Alloys and the Site Occupations of Al, Co, Ga Elements .....	<i>PAN Shu-ming et al.</i>	(1519)
